

**Product Name: MRC2/ENDO180 (10A4) Rabbit
Monoclonal Antibody
Catalog #: AMRe14079**

Summary

Production Name	MRC2/ENDO180 (10A4) Rabbit Monoclonal Antibody
Description	Rabbit Monoclonal Antibody
Host	Rabbit
Application	WB,ELISA
Reactivity	Human

Performance

Conjugation	Unconjugated
Modification	Unmodified
Isotype	IgG
Clonality	Monoclonal
Form	Liquid
Storage	Store at 4°C short term. Aliquot and store at -20°C long term. Avoid freeze/thaw cycles.
Buffer	Rabbit IgG in phosphate buffered saline , pH 7.4, 150mM NaCl, 0.02% New type preservative N and 50% glycerol. Store at +4°C short term. Store at -20°C long term. Avoid freeze / thaw cycle.
Purification	Affinity purification

Immunogen

Gene Name	MRC2
Alternative Names	CD280 antigen; MRC2; ENDO180; KIAA0709; UPARAP;
Gene ID	9902.0
SwissProt ID	Q9UBG0.

Application

Dilution Ratio	WB 1:500-1:2000
Molecular Weight	167kDa

**Product Name: MRC2/ENDO180 (10A4) Rabbit
Monoclonal Antibody
Catalog #: AMRe14079**

Background

May play a role as endocytotic lectin receptor displaying calcium-dependent lectin activity. Internalizes glycosylated ligands from the extracellular space for release in an endosomal compartment via clathrin-mediated endocytosis. May play a role as endocytotic lectin receptor displaying calcium-dependent lectin activity. Internalizes glycosylated ligands from the extracellular space for release in an endosomal compartment via clathrin-mediated endocytosis. May be involved in plasminogen activation system controlling the extracellular level of PLAUR/PLAU, and thus may regulate protease activity at the cell surface. May contribute to cellular uptake, remodeling and degradation of extracellular collagen matrices. May play a role during cancer progression as well as in other chronic tissue destructive diseases acting on collagen turnover. May participate in remodeling of extracellular matrix cooperating with the matrix metalloproteinases (MMPs).

Research Area

Image Data

Western blot analysis of MRC2/ENDO180 expression in Saos2 cell lysate.
