

Antibody

Catalog #: AMRe16408

Summary

PPAR gamma (19L6) Rabbit Monoclonal Antibody **Production Name**

Description Rabbit Monoclonal Antibody

Host Rabbit **Application** WB Reactivity Human

Performance

Conjugation	Unconjugated
Modification	Unmodified
Isotype	IgG
Clonality	Monoclonal
Form	Liquid
Storage	Store at 4°C short term. Aliquot and store at -20°C long term. Avoid freeze/thaw cycles.
Buffer	Rabbit IgG in phosphate buffered saline , pH 7.4, 150mM NaCl, 0.02% New type preservative N and 50% glycerol. Store at +4°C short term. Store at -20°C long term. Avoid freeze / thaw cycle.
Purification	Affinity purification

Immunogen

Alternative Names

Gene Name PPARG

CIMT1; GLM1; NR1C3; Nuclear receptor subfamily 1 group C member 3; Peroxisome

proliferator activated nuclear receptor gamma variant 1; Peroxisome proliferator

activated receptor gamma 1; Peroxisome Proliferator Activated Receptor gamma; PPAR

gamma; PPARG; PPARG1; PPARG2; PPARgamma;

Gene ID 5468.0 SwissProt ID P37231.

Application

Dilution Ratio WB 1:500-1:2000

Product Name: PPAR gamma (19L6) Rabbit Monoclona

Catalog #: AMRe16408

Molecular Weight

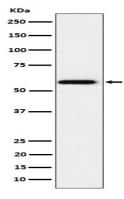

58kDa

Background

Receptor that binds peroxisome proliferators such as hypolipidemic drugs and fatty acids. Once activated by a ligand, the receptor binds to a promoter element in the gene for acyl-CoA oxidase and activates its transcription. It therefore controls the peroxisomal beta-oxidation pathway of fatty acids. Key regulator of adipocyte differentiation and glucose homeostasis. Nuclear receptor that binds peroxisome proliferators such as hypolipidemic drugs and fatty acids. Once activated by a ligand, the nuclear receptor binds to DNA specific PPAR response elements (PPRE) and modulates the transcription of its target genes, such as acyl-CoA oxidase. It therefore controls the peroxisomal beta-oxidation pathway of fatty acids. Key regulator of adipocyte differentiation and glucose homeostasis. ARF6 acts as a key regulator of the tissue-specific adipocyte P2 (aP2) enhancer. Acts as a critical regulator of gut homeostasis by suppressing NF-kappa-B-mediated proinflammatory responses. Plays a role in the regulation of cardiovascular circadian rhythms by regulating the transcription of ARNTL/BMAL1 in the blood vessels (By similarity).

Research Area

Image Data

Western blot analysis of PPAR gamma expression in HeLa cell lysate.

Note

For research use only.
