

Product Name: ALR Rabbit Polyclonal Antibody
Catalog #: APRab06808

Summary

Production Name	ALR Rabbit Polyclonal Antibody
Description	Rabbit Polyclonal Antibody
Host	Rabbit
Application	WB,IHC,ELISA
Reactivity	Human,Mouse,Rat

Performance

Conjugation	Unconjugated
Modification	Unmodified
Isotype	IgG
Clonality	Polyclonal
Form	Liquid
Storage	Store at 4°C short term. Aliquot and store at -20°C long term. Avoid freeze/thaw cycles.
Buffer	Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% New type preservative N.
Purification	Affinity purification

Immunogen

Gene Name	GFER
Alternative Names	GFER; ALR; HERV1; HPO; FAD-linked sulfhydryl oxidase ALR; Augmenter of liver regeneration; hERV1; Hepatopoietin
Gene ID	2671.0
SwissProt ID	P55789.The antiserum was produced against synthesized peptide derived from the Internal region of human GFER. AA range:51-100

Application

Dilution Ratio	WB 1:500 - 1:2000. IHC-p: 1:100-1:300. ELISA: 1:20000..
Molecular Weight	24kD

Product Name: ALR Rabbit Polyclonal Antibody
Catalog #: APRab06808

Background

The hepatotrophic factor designated augments liver regeneration (ALR) is thought to be one of the factors responsible for the extraordinary regenerative capacity of mammalian liver. It has also been called hepatic regenerative stimulation substance (HSS). The gene resides on chromosome 16 in the interval containing the locus for polycystic kidney disease (PKD1). The putative gene product is 42% similar to the scERV1 protein of yeast. The yeast scERV1 gene had been found to be essential for oxidative phosphorylation, the maintenance of mitochondrial genomes, and the cell division cycle. The human gene is both the structural and functional homolog of the yeast scERV1 gene. [provided by RefSeq, Jul 2008], catalytic activity: $4 \text{ R}^{\prime}\text{C}(\text{R})\text{SH} + \text{O}(2) = 2 \text{ R}^{\prime}\text{C}(\text{R})\text{S}-\text{S}(\text{R})\text{CR}^{\prime} + 2 \text{ H}(2)\text{O}$, cofactor: FAD, function: FAD-dependent sulfhydryl oxidase that catalyzes disulfide bond formation, similarity: Contains 1 ERV/ALR sulfhydryl oxidase domain, subunit: Homodimer,

Research Area

Image Data

Western Blot analysis of HBE cells using ALR Polyclonal Antibody.. Secondary antibody was diluted at 1:20000

Immunohistochemical analysis of paraffin-embedded human-liver, antibody was diluted at 1:100

Product Name: ALR Rabbit Polyclonal Antibody
Catalog #: APRab06808

Note

For research use only.
