## **Product Name: AQPO Rabbit Polyclonal Antibody**

Catalog #: APRab07064

## **Summary**

**Production Name** AQP0 Rabbit Polyclonal Antibody

**Description** Rabbit Polyclonal Antibody

**Host** Rabbit

**Application** IHC,WB,ELISA **Reactivity** Human,Mouse,Rat

### **Performance**

ConjugationUnconjugatedModificationUnmodified

**Isotype** IgG

Clonality Polyclonal Form Liquid

Store at 4°C short term. Aliquot and store at -20°C long term. Avoid freeze/thaw

cycles.

**Buffer** Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% New type preservative N.

**Purification** Affinity purification

### **Immunogen**

Storage

Gene Name MIP

Alternative Names MIP; AQP0; Lens fiber major intrinsic protein; Aquaporin-0; MIP26; MP26

**Gene ID** 4284.0

P30301. The antiserum was produced against synthesized peptide derived from human

AQP0. AA range:95-144

## **Application**

**SwissProt ID** 

**Dilution Ratio** WB 1:500 - 1:2000. IHC 1:100 - 1:300. ELISA: 1:5000..

Molecular Weight 28kD

## **Background**

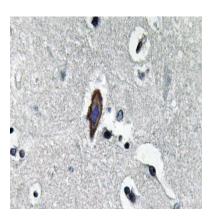

## Product Name: AQP0 Rabbit Polyclonal Antibody Catalog #: APRab07064

**C** EnkiLife

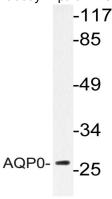

Major intrinsic protein is a member of the water-transporting aquaporins as well as the original member of the MIP family of channel proteins. The function of the fiber cell membrane protein encoded by this gene is undetermined, yet this protein is speculated to play a role in intracellular communication. The MIP protein is expressed in the ocular lens and is required for correct lens function. This gene has been mapped among aquaporins AQP2, AQP5, and AQP6, in a potential gene cluster at 12q13. [provided by RefSeq, Jul 2008], disease:Defects in MIP are a cause of autosomal recessive congenital cataract [MIM:154050]., domain:Aquaporins contain two tandem repeats each containing three membrane-spanning domains and a pore-forming loop with the signature motif Asn-Pro-Ala (NPA)., function:Water channel. May be responsible for regulating the osmolarity of the lens., similarity:Belongs to the MIP/aquaporin (TC 1.A.8) family., tissue specificity:Major component of lens fiber gap junctions.,

#### Research Area

## **Image Data**

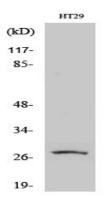

Immunohistochemistry analysis of AQPO antibody in paraffin-embedded human brain tissue.

Western blot analysis of lysate from HT-29 cells, using AQP0 antibody.

# Product Name: AQP0 Rabbit Polyclonal Antibody Catalog #: APRab07064

**C**i EnkiLife

Western Blot analysis of various cells using AQPO Polyclonal Antibody
