Product Name: MEL-1B-R Rabbit Polyclonal Antibody

Catalog #: APRab13813

Summary

Production Name MEL-1B-R Rabbit Polyclonal Antibody

Description Rabbit Polyclonal Antibody

Host Rabbit
Application WB,

Reactivity Human, Rat, Mouse

Performance

ConjugationUnconjugatedModificationUnmodified

Isotype IgG

Clonality Polyclonal Form Liquid

Store at 4°C short term. Aliquot and store at -20°C long term. Avoid freeze/thaw

cycles.

Buffer Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% New type preservative N.

Purification Affinity purification

Immunogen

Storage

Gene Name MTNR1B

Alternative Names MTNR1B; Melatonin receptor type 1B; Mel-1B-R; Mel1b receptor

Gene ID 4544.0

P49286.The antiserum was produced against synthesized peptide derived from human

MTR1B. AA range:301-350

Application

SwissProt ID

Dilution Ratio WB 1:500-2000;

Molecular Weight 40kD

Background

Product Name: MEL-1B-R Rabbit Polyclonal Antibody Catalog #: APRab13813

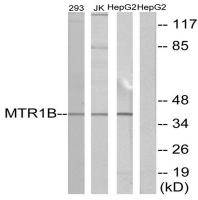

This gene encodes one of two high affinity forms of a receptor for melatonin, the primary hormone secreted by the pineal gland. This gene product is an integral membrane protein that is a G-protein coupled, 7-transmembrane receptor. It is found primarily in the retina and brain although this detection requires RT-PCR. It is thought to participate in light-dependent functions in the retina and may be involved in the neurobiological effects of melatonin. [provided by RefSeq, Jul 2008], function: High affinity receptor for melatonin. Likely to mediates the reproductive and circadian actions of melatonin. The activity of this receptor is mediated by pertussis toxin sensitive G proteins that inhibit adenylate cyclase activity., online information: Melatonin receptor entry, similarity: Belongs to the G-protein coupled receptor 1 family., tissue specificity: Expressed in retina and less in brain and hippocampus.,

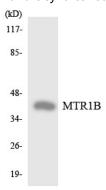

Research Area

Neuroactive ligand-receptor interaction;

Image Data

Western blot analysis of lysates from 293, Jurkat, and HepG2 cells, using MTR1B Antibody. The lane on the right is blocked with the synthesized peptide.

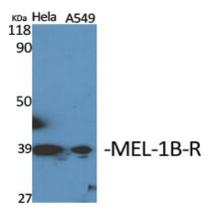

Western blot analysis of the lysates from HeLa cells using MTR1B antibody.
