

Product Name: Olfactory receptor 5T3 Rabbit Polyclonal Antibody
Catalog #: APRab15301

Summary

Production Name	Olfactory receptor 5T3 Rabbit Polyclonal Antibody
Description	Rabbit Polyclonal Antibody
Host	Rabbit
Application	IF,ELISA
Reactivity	Human,Rat,Mouse

Performance

Conjugation	Unconjugated
Modification	Unmodified
Isotype	IgG
Clonality	Polyclonal
Form	Liquid
Storage	Store at 4°C short term. Aliquot and store at -20°C long term. Avoid freeze/thaw cycles.
Buffer	Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% New type preservative N.
Purification	Affinity purification

Immunogen

Gene Name	OR5T3
Alternative Names	OR5T3; Olfactory receptor 5T3; Olfactory receptor OR11-178
Gene ID	390154.0
SwissProt ID	Q8NGG3.The antiserum was produced against synthesized peptide derived from human OR5T3. AA range:86-135

Application

Dilution Ratio	IF 1:200-1:1000. ELISA: 1:5000.
Molecular Weight	

Background

Product Name: Olfactory receptor 5T3 Rabbit Polyclonal Antibody
Catalog #: APRab15301

olfactory receptor family 5 subfamily T member 3(OR5T3) Homo sapiens Olfactory receptors interact with odorant molecules in the nose, to initiate a neuronal response that triggers the perception of a smell. The olfactory receptor proteins are members of a large family of G-protein-coupled receptors (GPCR) arising from single coding-exon genes. Olfactory receptors share a 7-transmembrane domain structure with many neurotransmitter and hormone receptors and are responsible for the recognition and G protein-mediated transduction of odorant signals. The olfactory receptor gene family is the largest in the genome. The nomenclature assigned to the olfactory receptor genes and proteins for this organism is independent of other organisms. [provided by RefSeq, Jul 2008],caution:It is uncertain whether Met-1 or Met-19 is the initiator.,function:Odorant receptor .,similarity:Belongs to the G-protein coupled receptor 1 family.,

Research Area

Olfactory transduction;

Image Data

Immunofluorescence analysis of MCF7 cells, using OR5T3 Antibody. The picture on the right is blocked with the synthesized peptide.

Note
