

Catalog #: APRab17148

Summary

Ribosomal Protein L15 Rabbit Polyclonal Antibody **Production Name**

Description Rabbit Polyclonal Antibody

Rabbit Host

Application WB,IHC,ELISA Reactivity Human, Mouse, Rat

Performance

Conjugation Unconjugated Modification Unmodified

IgG Isotype

Clonality Polyclonal **Form** Liquid

Store at 4°C short term. Aliquot and store at -20°C long term. Avoid freeze/thaw Storage

cycles.

Buffer Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% New type preservative N.

Purification Affinity purification

Immunogen

Gene Name RPL15

Alternative Names RPL15; EC45; TCBAP0781; 60S ribosomal protein L15

Gene ID 6138.0

P61313. The antiserum was produced against synthesized peptide derived from human **SwissProt ID**

RPL15. AA range:41-90

Application

Dilution Ratio WB 1:500 - 1:2000. IHC 1:100 - 1:300. ELISA: 1:40000...

Molecular Weight 20kD

Product Name: Ribosomal Protein L15 Rabbit Polyclonal

Antibody

Catalog #: APRab17148

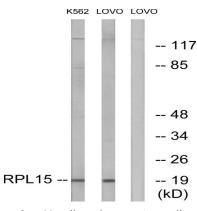

Background

Ribosomes, the organelles that catalyze protein synthesis, consist of a small 40S subunit and a large 60S subunit. Together these subunits are composed of 4 RNA species and approximately 80 structurally distinct proteins. This gene encodes a ribosomal protein that is a component of the 60S subunit. The protein belongs to the L15E family of ribosomal proteins. It is located in the cytoplasm. This gene shares sequence similarity with the yeast ribosomal protein YL10 gene. Although this gene has been referred to as RPL10, its official symbol is RPL15. This gene has been shown to be overexpressed in some esophageal tumors compared to normal matched tissues. Alternate splicing results in multiple transcript variants. As is typical for genes encoding ribosomal proteins, there are multiple processed pseudogenes of this gene dispersed through the genome. [provided by RefSeq, Nov 2011], similarity:Belongs to the ribosomal protein L15e family.,

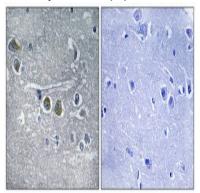

Research Area

Ribosome;

Image Data

Western blot analysis of lysates from LOVO and K562 cells, using RPL15 Antibody. The lane on the right is blocked with the synthesized peptide.

Immunohistochemical analysis of paraffin-embedded Human brain. Antibody was diluted at 1:100 (4°,overnight). High-pressure and temperature Tris-EDTA,pH8.0 was used for antigen retrieval. Negetive contrl (right) obtaned from antibody
