Product Name: Recombinant Human ANXA10

Catalog #: PEH0069

Summary

Name Annexin A10/ANXA10

Purity Greater than 95% as determined by reducing SDS-PAGE

Endotoxin level <1 EU/μg as determined by LAL test.

Construction Recombinant Human Annexin A10 is produced by our E.coli expression

system and the target gene encoding Met1-Tyr324 is expressed.

Accession # Q9UJ72

Host E.coli

Species Human

Predicted Molecular Mass 37.5 KDa

Formulation Lyophilized from a 0.2 µm filtered solution of PBS, pH7.4.

Shipping The product is shipped at ambient temperature. Upon receipt, store it

immediately at the temperature listed below.

Stability&Storage Lyophilized protein should be stored at \leq -20°C, stable for one year after receipt.

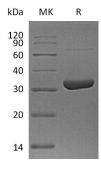

Reconstituted protein solution can be stored at 2-8°C for 2-7 days. Aliquots of

reconstituted samples are stable at \leq -20°C for 3 months.

Reconstitution Always centrifuge tubes before opening. Do not mix by vortex or pipetting. It is

not recommended to reconstitute to a concentration less than 100µg/ml. Dissolve the lyophilized protein in distilled water. Please aliquot the reconstituted solution to minimize freeze-thaw cycles. Background

Product Name: Recombinant Human ANXA10

Catalog #: PEH0069

Alternative Names Annexin A10; Annexin-10; Annexin-14; ANXA10; ANX14

Background Annexin A10 (ANXA10) contains four Annexin repeats and is a member of the

Annexin family. Members of this calcium-dependent phospholipid-binding protein family play a role in the regulation of cellular growth and in signal transduction pathways. It is reported that ANXA10 may be a clinical relevant marker for

predicting outcome in both early and advanced stages of bladder cancer.
