

## Summary

<b>Name</b>	B3GNT1/ $\beta$ -1,3-N-acetylglucosaminyltransferase 1
<b>Purity</b>	Greater than 95% as determined by reducing SDS-PAGE
<b>Endotoxin level</b>	<1 EU/ $\mu$ g as determined by LAL test.
<b>Construction</b>	Recombinant Human N-Acetylglucosaminidase Beta-1,3-N-Acetylglucosaminyltransferase is produced by our Mammalian expression system and the target gene encoding Asp43-Cys415 is expressed with a 6His tag at the C-terminus.
<b>Accession #</b>	O43505
<b>Host</b>	Human Cells
<b>Species</b>	Human
<b>Predicted Molecular Mass</b>	43.4 KDa
<b>Formulation</b>	Lyophilized from a 0.2 $\mu$ m filtered solution of 20mM Tris-HCl, 150mM NaCl, pH 7.4.
<b>Shipping</b>	The product is shipped at ambient temperature. Upon receipt, store it immediately at the temperature listed below.
<b>Stability&amp;Storage</b>	Store at $\leq -70^{\circ}\text{C}$ , stable for 6 months after receipt. Store at $\leq -70^{\circ}\text{C}$ , stable for 3 months under sterile conditions after opening. Please minimize freeze-thaw cycles.
<b>Reconstitution</b>	Always centrifuge tubes before opening. Do not mix by vortex or pipetting. It is not recommended to reconstitute to a concentration less than 100 $\mu$ g/ml. Dissolve the lyophilized protein in distilled water. Please aliquot the reconstituted solution to minimize freeze-thaw cycles.

## Background

**Product Name: Recombinant Human B3GNT1 (C-6His)**  
**Catalog #: PHH0118**

---

**Alternative Names**

N-Acetyllactosaminide Beta-1; 3-N-Acetylglucosaminyltransferase; I-Beta-1; 3-N-Acetylglucosaminyltransferase; iGnT; Poly-N-Acetyllactosamine Extension Enzyme; UDP-GlcNAc:BetaGal Beta-1; 3-N-Acetylglucosaminyltransferase 1; B3GNT1; B3GNT6

**Background**

N-Acetyllactosaminide  $\beta$ -1,3-N-Acetylglucosaminyltransferase (B3GNT1) is a member of the  $\beta$ -1,3-N-Acetylglucosaminyltransferase family. B3GNT1 is a single-pass type II membrane protein and widely expressed in many tissues. B3GNT1 can initiate the synthesis or the elongation of the linear poly-N-acetyllactosaminoglycans. B3GNT1 is essential for the synthesis of poly-N-acetyllactosamine, a determinant for the blood group i antigen. It can initiate the synthesis or the elongation of the linear poly-N-acetyllactosaminoglycans.
