Product Name: Recombinant Human Motilin (C-6His) Catalog #: PHH1375

Summary

Name Promotilin/MLN

Purity Greater than 95% as determined by reducing SDS-PAGE

Endotoxin level <1 EU/μg as determined by LAL test.

Construction Recombinant Human Motilin is produced by our Mammalian expression

system and the target gene encoding Phe26-Lys115 is expressed with a 6His

tag at the C-terminus.

Accession # P12872

Host Human Cells

Species Human

Predicted Molecular Mass 11.4 KDa

Formulation Lyophilized from a 0.2 µm filtered solution of 20mM PB, 150mM NaCl, pH 7.4.

Shipping The product is shipped at ambient temperature. Upon receipt, store it

immediately at the temperature listed below.

Stability&Storage Store at \leq -70°C, stable for 6 months after receipt. Store at \leq -70°C, stable for 3

months under sterile conditions after opening. Please minimize freeze-thaw

cycles.

Reconstitution Always centrifuge tubes before opening. Do not mix by vortex or pipetting. It is

not recommended to reconstitute to a concentration less than 100µg/ml. Dissolve the lyophilized protein in distilled water. Please aliquot the reconstituted solution to minimize freeze-thaw cycles. Background

Product Name: Recombinant Human Motilin (C-6His) Catalog #: PHH1375

Alternative Names Promotilin; Motilin-associated peptide; MLN

Background Promotilin is a secreted protein that belongs to the motilin family. Human

Promotilin cDNA encodes a 115 amino acid (aa) precursor that contains a 25 aa signal peptide and a 90 aa with motilin and motilin-associated peptide. It plays an important role in the regulation of interdigestive gastrointestinal motility and indirectly causes rhythmic contraction of duodenal and colonic smooth muscle.

Note

For Research Use Only, Not for Diagnostic Use.
